DIVISIONAL RESOURCE PROFILE

2018

**PLANNING UNIT
DIVISIONAL SECRETARIAT
VADAMARADCHY NORTH
POINT PEDRO**

PREFACE

It is a great Pleasure to share with you this document ‘‘ **Divisional Resources Profile – 2017**’’. This Profile will Provide you a clear picture of the statistics in Vadamadchi North.

This profile will provide essential information to plan the Development, Rehabilitation, Reconstruction and Resettlement activities of the division by the Governmental, Non-governmental and Un agencies for the better planning of projects to the people of the Vadamadchi North.

We expect the support from various agencies to improve the Administrative services and Development Activities in Vadamadchi North. We hope that as a useful guide.

I would like to express my sincere gratitude to the Asst. Director, Planning, Planning units and Grama Niladharies attached to this secretariat, who worked hard to publish this document. Also I’m thankful to Provincial Planning Secretary for their financial support in preparing the Divisional Profile. We expect constructive suggestions from the users for improvement of this profile.

Thanking You,

Divisional Secretary,
Vadamadchy North,
Point Pedro.

1. DETAILS OF DIVISIONAL SECRETARIAT

1.1 Basic Information of the Division.

D.S Division	: -Vadamaradchy North
Electoral District	: - Jaffna
District	: - Jaffna
No.of GN Divisions	: - 35
No.of Villages	: -140
Population	: - 45296
Land Extent	: - 50.20 Sq. Km

1.2. Location

Divisional Secretariat Vadamaradchy North is located in North East part of Jaffna in the Northern Province of Srilanka. The area of the Divisional Secretariat is 50.20 Sq.km. It has a boundary consisting of 1.6 Km lagoon, 19 km sea shore. Its' North boundary is in the Palk Strait, East boundary is the Indian Ocean, South boundary is Vadamaradchy South West Divisional Secretariat Division (Karaveddy) and Vadamaradchy East Divisional Secretariat Division (Maruthankerny), West boundary is Vali East Divisional Secretariat Division (Kopay). It is situated in the distance of 34 km from Jaffna town towards North East.

Vadamaradchy North region has three local governments, two Urban Councils and one Pradeshiya Sabha. 13234 families consist of 45296 members are living in this division. Population density is about 902.31.

Physical structure of the Vadamaradchy North region is a flat land. But areas like Kerudavil, Urikadu and Komanthurai are high land regions.

Climate in this region is similar to the climate of the Northern Province. South West monsoon and North East monsoon brings rain to the region.

Economic activities of the area are Agriculture, Fisheries and service sectors. Agriculture has been done using underground water and rain water. Paddy, Onion, Tobacco, Vegetables and planting of fruit trees is cultivated in the region.

Deep sea fishing, coastal fishing has been carried out by the people living in coastal area.

Service sector activities have been taken place as government and private sectors. But regional people show a great interest to self employment efforts.

Regarding the road structure of the Vadamaradchy North region, A, B class roads are maintained by the Road Development Authorities and C, D class roads are maintained by the Road Development Departments. Internal roads are tarred and graveled and maintained by the Local Government.

Considering the educational facilities of the area, there are 31 schools under Vadamaradchi zone. Some of them have the facility of learning until the Advanced Level. Students in the region are talented and getting favorable results. Students enter the universities every year.

Health facilities of the region are in developing stage. There is a government as well as private hospitals functioning in this region. In addition to this, Ayurvedic Hospitals are also giving their services to the public. Regional people have the facility to get their treatments for most of their illness problems.

1.3 Resources

Human and natural resources are very important resources available in the Vadamaradchy North Divisional Secretariat area. The following seven resources are included as natural resources of this region.

1. Mangrove
2. Coral reefs
3. Sea
4. Mineral sand
5. Fishing
6. Good drinking water
7. Palmyrah

In the early days, Mangrove jungle was in high density in Kerudavil. It was in low density now a days and it is rarely seen comparing with early days. It is continuing to be destroyed by the people for the purpose of fire wood and medical purposes.

Availability of coral reefs is the special feature of the coast line area. It is shown from Point Pedro east to Thondamanaru sea and river age little junction in our Divisional Secretariat Division. Those days' people use these coral reefs for their housing purposes. They were built up the houses by coral reefs.

These coral reefs are causes for generating fish. Coral reef is a natural resource inside the sea with high elevation prevents the people from natural disaster like tsunami and also erosion of the soil at the sea shore. The sea areas are

extention along the coast line area from Vallipuram to Thondamanaru. This area have contained 19 km of sea extend.

In the division have contained three types of sand pattern such as salt sand, calcium intergrated red sand and soil sand. Salt sand area land have used for paddy production. High land which has contained calcium intergrated red sand. In the high land people are cultivating onion, chellies, tobacco and bringal, beans, pumkin vegetable etc.

Vadamaradchy North Division has covered 19 km coastal line along the sea side. Fishermen catch lots of variety of fish from this sea. Caught fish are transporting to the western and southern part of srilanka and export to abroad.

The soil sand is planty of this area which is commencing from Thumpalai east to Vallipuram. This area is suitable for engaging karavalai fishing and the beautiful beaches are attractive place and to motivate tourist to come and see this place.

Good drinking water is seen at underground in Vallipuram in the Vadamaradchy North division.

Vadamaradchy North Divisional Secretariat Division has 125 Ha land area covered by palmyrah trees. Palmyrah resources have been used as a raw material in several cottage industries for self employment.

We must improve new technological knowledge and improve product quality and quantity of our cottage industry. Palmyrah trees were destroyed by several parties for their usage purposes through rehabilitation. This palmyrah trees will be replanted for the future usage and development of palmyrah resources to be used for enterprenureship.

Human resources with special skills have available in the Vadamaradchy North Division. Well educated people are here in this division for e.g: Doctors, Enginners, of Head the Departments, Bankers, Economist, expert teachers and consultants etc. Sectorals schalors are living in this area as a special indication.

4. RESOURCE OF AGRICULTURE & LIVESTOCK

Agriculture and livestock breeders are one of the ways to earn income. Most of the farmers cultivate crops and carryout animal husbandry at the same time. In some of the areas, vegetables such as onion, chillies, tobacco, egg plants, kidney beans, tapioca, pumpkin and paddy are cultivated.

In animal husbandry, goat farming, dairy farming and poultry farming are successfully done. These are helping the rearers to earn income for their livelihood.

4.1 Distribution of paddy

4.1.1 Yield of Paddy

<i>Seasons</i>	<i>Year (Hec)</i>		
	<i>2014/2015</i>	<i>2015/2016</i>	<i>2016/2017</i>
Maha	200	205	220
Yala	-	-	
Total	200	205	220

Source: Agriculture Extention Centre

4.1.2 Average Yield (Kind of Irrigation – Rain fed)

<i>Seasons</i>	<i>Year (Hec)</i>		
	<i>2014/2015</i>	<i>2015/2016</i>	<i>2016/2017</i>
Maha	2.7	2.7	2.4
Yala	-	-	
Total	2.7	2.7	2.4

Source: Agriculture Extention Centre

4.2 Other Main Crops - 2017

Palmyrah is main crop in the Vadamaradchy North Division

No.	Crops	Extent (Hec)
1	Perrenial crops	30.5
2	Cashew	0.25
3	Palmyrah	125
4	Coconut tree	90
5	Source of forest	3
6	Fruits	
	Plantain	12
	Lime	16
	Jack	2
	Mango	24.5
	Papaw	0.25
	Grapes	-
	Passion fruit	0.4
	Nelli	0.4
	Wood Apple	1.5
7	Home Garden	136

Source: Agrarian Service Centre

Possibilities for increasing production

1. Increasing extend - Yala
2. Increase marketing facilities
3. Introducing high yield crops.
4. Following water manegment system.
5. Introducing modern technology in agriculture sector.
6. Identifying the abandoned paddy fields and commences farming operations.
7. Periodical repairing of flood channels.

Problems & solution of agriculture sector Problems	Solution
1.Soil Problem	Soil research and find a way to utilize it.
2.Now a days agriculture labour charges are increasing	Using agricultural machinaries
3.In some places, farmers use common well only and if it is continuously used that water changing to salt	Using modern irrigation method; spring water supply.
4. Increase usage of agro chemicals	Using the suitable fertilizer and insecticide eg:-Compose fertilizer
5.Destorying the crops by cattle	Costruction of common fence

during the Yala season	
6.Cultivation area decreased in the region affected by tsunami	To conduct awareness Training the Programme for farmers
7.There is no store room to preserve the agriculture products	Create the storage facilities
8.Paddy cultivation is decreasing by the changing climate	Planting trees and cultivation of other crops those are suitable for the climate.
9.The water is sour at the places affected by tsunami	Using rain water harvesting

Source: Agrarian Service Centre

4.3 Development of Livestock

4.3.1 Dairy farming

Type	2014	2015	2016	2017
Milk cows	850	700	700	722
Other cows	2700	1025	2050	2073
Buffalos	-	-	-	-
Bull	500	-	-	-

4.3.2 Goat farming

Type	2014	2015	2016	2017
He	420	1200	2400	2715
She	3755	3600	2430	2640

Source: Dep. Of Veterinary

4.3.3 Poultry Farming

There is poultry farming in small scale in houses and in large scale at farms

Distribution of poultry farming

Type	2014	2015	2016	2017
Laying hens	8250	4000	11620	11780
Cocks	2000	2000	4600	4900
Chicken	10270	2800	9000	9850
Total	20520	8800	25220	26530

Source: Dep. Of Veterinary

Problems & Solutions of Livestock

<i>Problems</i>	<i>Solutions</i>
Milk Production	1. Introducing good variety of milk cows.
	2. Arrangements to be made to make available the vaccinations to avoid spreading infectious diseases.
	3. Modern method to be introduced regarding livestock.
Poor Livestock	1. Create the pasture land
	2. Good variety of live stock to be introduced
	3. Training classes should be conducted
	4. Regular protection against the diseases
Marketing	1. Action should be taken to purchase milk from milk producers
	2. Milk collection centers should be established with modern facilities
	3. Providing the transport facilities
	4. By products should be made available using milk as a raw materials

Source: Dep. Of Veterinary

Suggestion for increasing of livestock

1. Breeding high breed animals.
2. Cultivation of new varieties of grass.
3. Methodical use of grass lands.
4. Availability of refrigeration facilities in transportation.
5. Use of machinery in this field.
6. Production and distribution of milk by co-operation.
7. Use of easy transport in marketing.

5. LAND

5.1 Land Use Pattern (Hec.)

There are several types of land use pattern in this division which is used for agriculture, residential purpose & etc. Those are as follows.

<i>No</i>	<i>Category</i>	<i>Area (Ha)</i>
1	Paddy	190
2	Arable Crops	850
3	Fruits Crops	2
4	Cocount	90
5	Palmyrah	125
6	Economic trees	111
7	Rock Lands	-
8	Sandy and Syrup Jungles	-
9	Saline , Alkaline and Barren Lands	2332
10	Buildings, Roads and others Homestead Lands	1320
11	Area under Inland water	400
12	Land which cannot be cultivatable due to present situation	-
13	Land got damaged in permanaet crops	-
Total		5420

Source:Divisional Secretariat

6. INDUSTRY

There is no large or medium level industry in our division. There are small cottages industries such as handloom industry, jewellery industry, handicraft, timber works, hard ware works etc. * There are no large industries in this Divisional Secretariat division.

6.1 Physical Resources

<i>Resources</i>	<i>Area</i>	<i>Possible Production</i>
1. Silica	Vallipuram	Glass
2. Palmyrah	Singanagar, Alva North Vallipuram, Katkoyalam	Mat, Cap, Palmyrah sweets
3. Fish	Katkoyalam to Thondamanaru Costal Area	Fresh fish & Dry fish production

Source: Divisional Secretariat

6.2 Small scale cottage industry

<i>Industry</i>	<i>Active</i>		<i>No.of Labourers</i>
	<i>Functioning</i>	<i>Not Functioning</i>	
Small/Middle	72	12	202

Source: Divisional Secretariat

Possibilities for industrial development

1. Ice factory could be started for preservation
2. Palmyrah handicraft & coir industries can be started from the raw materials of palmyrah and coconut trees.
3. Glass factory can be started using minerals in this division
4. Introducing re-plantation of palmyrah schemes

Problems and Solutions

<i>Problems</i>	<i>Solutions</i>
1.Lack of fund for developing the industrial sector	1. Improvement of industrial activities.
	2.Minerals in this division should be used at maximum level
	3. Action should be taken to identify the minerals which have not been identified so far.
2.Non availability of resource persons related to industrial sector	1. Small industries should be started by Govt.Sector in this division
	2. Private sector should be motivated.
	3. Training should be provided in industrial sector

7. FISHERIES

Introduction

Northern boundary of our Vadammaradchy North Divisional Secretariat has coastal area. There are many fish varieties caught in the coastal areas. Here there is a possibility to earn the income from fishing because there is a good market for the catch with southern fish traders. There are 19 Grama Niladhari divisions are in the coastal area. Those are affected by war & tsunami. There are 1 jetty and 14 anchoring points from east forwards to west. They are as follows

1. Katkivalam
2. Thumpalai East
3. Munai
4. Koddadi
5. Suppermadam
6. Inparuddi
7. Sakkoddai
8. Polikandy East
9. Polikandy West
10. Valvettithurai
11. Athikovilady
12. Kerudavil
13. Thondamanaru

The length of seashore is 19 km approximately

7.1 Details of Fisheries

Type	Year			
	2014	2015	2016	2017
1. No.of fisheries family	3042	3192	3036	3186
2. No.of fishing population	14703	14313	14146	14313
3. Engine boat (in)	62	55	55	56
4. Engine boat (out)	870	830	855	1163
5. Boat (without engine)	952	952	916	750
6. No.of fisheries villages	13	13	13	13
7. No.of fisheries societies	13	13	13	13
8. Members of fisheries societies	4525	4923	4719	4818
9. Fisheries pensioners	1050	1050	1	-
10. Production of fresh fish (mt)	4913	4920	-	5863
11. Fishing harbours	1	1	1	1
12. Dry fish production(mt)	364.6	365	365	368

Source: Dep.Of.Fisheries

Method of fishing (19km)

1. Thondamanaru lagoon.
2. From Katkivalam to Thondamanaru – Deep Sea fishing method (In/Out Engine Boats)
3. Katkivalam- Madal nets of boats method & Deep Sea

At present above mentioned systems are used here

Method of Deep sea systems

It is used the fitting in engine boat 28'-32' to the multi boats & fitting out boat motor fibre glass engine boats 17'-23' to the day boats and use the 'Thirukkai net' 7"4 $\frac{3}{4}$, 2 1/4" net 11/8" - soodai net

Problems and Solutions

<i>Problems</i>	<i>Solutions</i>
1. Non availability of improved fishing methods & new technologies.	Infrastructure facilities to be provided in small fishing jetties
2. No enough infrastructure facilities in the harbour, light houses, airconditioned vehicles	Security relaxation and renovation of the jetty facilities to be under taken
3. Shortage of fishing inputs	Provision of fishing inputs
4. Use of illegal fishing methods	Take legal fishing methods

Source: Dep.of.Fisheries

Alternative suggestions to sustain the livelihood of fishermen

1. Give them vocational training
2. Dry fish sales
3. Out boat engine repairing training programme
4. Providing assets by Government and Non Government Organization.
5. Introduce the modern technologies in fishing
6. Providing livelihood assistance for the poor fishing families.

8. HOUSING

5535 Houses were affected (Partly, Fully) by Tsunami. 3509 houses were fully damaged 2048 houses were partly damaged. 2831 fully damaged houses were completed and handed over to the affected families.

After the tsunami there are so many NGO provided the housing scheme and livelihood activities. Most of the houses had been completed and the details are as follows.

Since last year the Ministry of Prison Reforms, Rehabilitation, Resettlement and Hindu Religious Affairs provide housing facilities to the resettled, relocated or returnee refugee families in the conflict affected areas of this division. Details are as follows.

S.No	Implementing Agency	No of Houses Completed

9. TOURISM

Today tourism is popular global leisure activity. International tourism has incoming the country and affects its economy. In some countries Tourism is the major source for their economy.

Consequent to the opening of A9 route, foreign and other district tourists visit in our division, because there are some historical places. So government should take measures to encourage tourism development. Restoration of tourists visiting places and made them attractive is one of the ways to promote tourism.

Tourist places in Vadamadchi North

- ✿ Sannathi Temple at Thondamanaru South
- ✿ Cave Mandapakkadu at Kerudavil South
- ✿ Oorani Spring at Polikandy West
- ✿ Therumoodimadam at Point Pedro
- ✿ Light House at Point Pedro East
- ✿ Vallipuram temple at Vallipuram
- ✿ Beach at Thumpalai East
- ✿ Beach at Koddadi
- ✿ Hole well at Thondamanaru

13. TELE - COMUNICATION

In Vadammaradchy area, SriLankan Telecom is providing landline phones and other services. In addition to that, most of the people are using mobile phones. All the Government Departments have telephone facilities in this division and some private/individual families also receive these facilities.

As far as telecommunication facilities are concerned, land line phones are provided by Srilankan telecom and GMS mobile networks by Dialog, Mobitel and Hutch. CDMA phones are also popular as an alternative to land lines. Broadband internet was introduced in 2010 and is a major step forward. This can be accessed via SLT ADSL connection or by wireless connection using an antenna from Dialog. A number of shops provide IDD, fax and internet facilities.

Problems and Solution

Problems	Solution
1. Development of science & Maths fields is less	1. Construction of Science Lab with Equipments
	2. Conducting science & Maths exam through school & Zonal level
2. Not sufficient English teacher	Appointment of English trained teachers.
3. No facilities for vocational study.	Training colleges, Agricultural vocational training centers and Fisheries vocational training centers should be established.

17. WATER

Water is an essential resource. We should preserve the water resources. Vadamadachy North area contains fresh water, moderate salt water, and salt water. People mainly get water through under ground water resource.

There is no river in this area. It has drainage channel. In Heavy rainy seasons flood goes through the way of the channel and it reached to the sea. There are a few minor ponds.

17.1 Ground Water Resources

The water level of the land is high and deep (12 m below) in some areas. The water level is up in the cost of Eastern seashore. The ground water is used for drinking and other usages.

17.2 Other water Resource

In the West the Thondamanaru lagoon is situated. Its' area is about 4 sq.km. In the summer seasons it is seen dry. This land is not suitable for agriculture purposes as the water of the lagoon is salinity.

17.3 Tanks

There are 17 tanks in order to store water during rainy seasons. These are essential to maintain the humidity of the soil, water level balance of the underground water and to prevent salinity of the soil.

Details of Tanks		
S.No	Name of the tank	Location
1	Muravil tank	Puloly South

18. PUBLIC INVESTMENT

Investments are made by the help of foreign countries and Govt. & Non Govt Organizations.

18.1 Government Investment

1. Ministry of Education Cultural Affairs Sports and Youth Affairs
2. Ministry of Social Services
3. Ministry of Fisheries
4. Ministry of Prison reforms, Rehabilitation, Resettlement and Hindu Religious Affairs
5. Ministry of Reconciliation Focused Economic Empowerment

18.2 Non Government Organization and Community Based Organization

18.2.1 Introduction

There are many Non Government Organizations are functioning in our division. They are supported and they also contribute to enhance community micro loan scheme, infrastructure facility and people awareness programme are provided with the participation of the community and encouraging the people to participate in development work, youth education, women empowerment and the delivery of awareness raising programme.

Multi types of services are being carried out by Non.Govt Organization in our division. They are doing humanitarian aids during disaster times. In addition to that RDS, WRDS, FCS and CBO are functioning in this division. Some CBOO should be strengthened for the development activities.

Activities of NGOo

1. Implementing livelihood assistance scheme through the CBOo
2. Mobile services to the society
3. Awareness programme to the society

18.2.2 NGOo - In Point Pedro DS Division

S.no	Name of NGOO	Activities
1	VOGT	Micro finance facilities
2	Itham	Livelihood and Counselling services
3	Anjali Aham	Livelihood and Counselling services
4	FRC	Counselling services and conducting Medical camps
5	Sond	Welfare facilities for the returnees from Middle East
6	Centre for Child Development	Child care services
7	UNDP	Livelihood

20. TRADE AND SERVICE CENTER

Introduction

There are 1242 registered private trade centers upto 2017. . For example, some of them are Co -operative shops, mills, tailoring shops, bakery, pharmacy, Jewellery shops, studios, textiles, hardware shops, book shops, Grocery shops etc.They are doing their services well eventhough there are competitions in the market.

20.1 Co-operative Societies

There are Point Pedro and Puloly Multipurpose Co-operative shops. And they have branches in every village. There are also Bakery, Fuel Shed, and Rural Co-operative shop

20.2 Banks

There are six Varies banks functioning in our division. These are Peoples Bank, Bank of Ceylon, National Savings Bank and Hatton National Bank, Commercoal Bank, Sanasa Bank. They are doing cash deposit, ATM system, cach withdrawal, giving credit facilities to the customers. Peoples bank branches are functioning in Point Pedro and Valvettithurai town.

20.3 Private Trade Center

There are many private trade centers. Most of the people can satisfy their essential needs from here.

20.4 Markets

Thar are two varieties of markets, such as fish & vegetable markets. Valvettithurai & Point Pedro vegetable markets are functioning in permanent buildings. New super market was constructed in Point Pedro town in 2014.

20.5 Details of Markets

GN Division comes under the following Local Bodies

22.3 Local Authorities

In Vadammaradchy North Division, there are three Local Government bodies. They are Point Pedro Urban Council, Valvettithurai Urban Council and Point Pedro Pradeshia Sabah.

They are providing various services such as construction and maintenance of streets, local roads and drainage systems, Provision of drinking water, establishment and Maintenance of markets, public toilets, public wells and cemeteries. In addition to that, they take off public libraries and run Ayurvedic dispensaries etc.

23. DISASTER

Our area consists of various types of valuable resources. As it is located near the sea, our area is a disaster prone region. So there is a possibility of the occurrence of any disaster which led to the destruction of our valuable resources. For example, Tsunami which took place in 1883 and 2004 destroyed many lives and properties of the Vadamaradchy north region. In order to protect our resources from the disasters are conducting various programmes and plans.

They are

- ✿ Arranging awareness programs to the disasters.
- ✿ Issuing hand outs and notices.
- ✿ Providing information about disasters through media.

24. ENVIRONMENT

Matters related to environment

Today environment is facing various challenges by the natural as well as artificial factors. We should take proper measures to protect our environment. Industrialization and changing lifestyles of the people have made vast changes to the environment. We should adapt to the conditions of the environment. People must have interactions with the environment in friendly manners. We should concern for environmental protection and improvement of the health of the environment. So environmentalism needs to be established within the country to control pollution and other harmful hazards to the environment. .

Hence top priority is to be given to the problems of environment today in the country. The development programmes have to be established which give great benefits to the solving of environmental problems. So this can be paid with great attention. When we observe the environmental problems and its impacts within our DS division we could see Vadammaradchi North has a very long coastal area which is one of the main reasons for the causing of the water pollution.

Sea erosion is one of the most important environmental problems. This area was originally suitable for cultivation and is becoming gradually unsuitable because of sea erosion. The underground water which was ideal for drinking purpose is becoming salty. It is observed that the light house which is within the Point Pedro G.N division is under the threat of collapsing.

Now there are only woods at small scale. The woods which were seen in places like Thondamanaru, Katkivalam and Vallipuram have been partly destroyed for the purposes of firewoods and partly destroyed for the purposes of security reasons in a great deal. It is noticed that some kinds of birds have gone to the level of extinction as a result of destruction of woods in the area of Thondamanaru. Though the woods are destroyed blindly, so far no any action is taken to reforest. This situation is becoming a cause for the changing of climate. Grand scale sand removal in those areas is also another problem.

This sand removal gives great possibilities for the sea water to get into land. Same will cause damages to the buildings which are nearby.

Pumping water from the wells without any control will ultimately lead to water getting polluted.

Putting up houses without any plan in a densely populated area is also an environmental related problem which needs attention to arrive soon.

Non removal of garbage regularly is too an environmental related problem.

Methods for safeguarding environment

1. Planting trees
2. Issuing sand only on permit.
3. Water becoming salty could be reduced by way of collecting rain water in built reservoirs.
4. by conducting awareness programmes on "How to keep environment clean"

Opportunities for retaining sustainable development

The sectors of agriculture, animal husbandries, education, health and transport should be improved to make development in this division. Living standard of the people may be upgraded by this development

26 . CONCLUSION

This Divisional Profile is a pioneering attempt to gather all aspect of the Vadamaradchi North Division into a document. It is containing comprehensive data provided by all the relevant Department has been complied, collated and analysed moreover. It is being prepared at annual basis when there is a need for thorough analysis of issues and problems to form a basis for future development work.

To prepare good development plan, extensive data and details are required. Data can be useful only if it is well organized catagorised and analysed. Development data should be objective, precise relevant and brief. It should also be clear and easy to understand and available for making decisions. The Vadamaradchi North Divisional Profile has all these characteristics and therefore there is no doubt that the document will serve as a source of priceless information and be welcomed by whole stake holders with thanks.
